

Client:

Berrybridge Housing, Liverpool.

Sector:

Part of The Riverside Group, the UK's foremost social purpose housing and regeneration company.

Value:

£13,000

The Brief:

Design and install the electrical, security and access control systems.

Case Studies

Berrybridge Housing, Liverpool.

The Process:

After carrying out a survey, McGoff & Vickers worked with the project consultant to realise the client's brief. Once the building was finished our engineers tested the system and provided operational training for the client.

Result:

The contract was completed on time and within budget to the client's satisfaction. Our ability to undertake the complete coordinated package provided the client with the convenience and peace of mind of dealing with one contractor.

Customer Satisfaction:

"Berrybridge Housing were very pleased with the overall performance of McGoff & Vickers and the onsite team."
