

**Client:**

Blackburn & Darwin Borough Council.

**Sector:**

Local Education Authority responsible for maintaining high quality services in schools and education facility's across the two boroughs.

**Value:**

£100,000 – £120,000 PA

**The Brief:**

To provide structured network cabling and wireless solutions to all schools in the Blackburn & Darwin Borough.

## Case Studies

Blackburn & Darwin Borough Council.

**The Process:**

The client's requirements are generated from many sources within the borough. McGoff & Vickers respond to requests directly from schools or centrally to provide network services for the ICT suites, interactive whiteboards and general voice and data structured cabling, including fibre optic backbones throughout the schools.

**Result:**

The data project manager visits site to ascertain the exact requirements and produces a priced solution for consideration. The client instructs us to commence, often at short notice to carry out the works, invariably in occupied premises. Our team of field engineers and specialists respond quickly and efficiently to minimise disruption to the school.

**Customer Satisfaction:**

*"McGoff & Vickers have always delivered excellent service. The flexibility needed to work in occupied premises is essential and we are very pleased with their approach"*

**Tony Cozzolino, ICT Manager, Pleckgate High School Blackburn**
