

North West  
Collaborative Commercial Agency

## **McGoff & Vickers Ltd have won a new framework agreement with The North West Collaborative Commercial Agency (NWCCA) for the supply of Security Services to the NHS.**

The NWCCA is the award-winning collaborative purchasing agency for NHS Trusts in the North West of England. Dedicated to raising standards in procurement for the NHS in the region, the NWCCA (previously known as the North West Collaborative Procurement Hub) has over the last five years helped Trusts maximise their massive purchasing power to achieve savings of more than £110 million which have been reinvested to further enhance the quality of patient care.

The NHS spends £3.2billion annually on goods and services in the North West of England. This pays for a whole range of items, from multi-million pound building and equipment contracts, to people and medical services right down to the biros and stationery used every day in hospital wards and offices.

"We are delighted to have been awarded this framework agreement," commented Mark Giardelli . Managing Director.

"We look forward to working closely with the NWCCA, and to strengthening our relationship with the NHS Trusts in the North West. As part of the procurement process we had to prove that we were committed to the NWCCA's strategic goals of continually improving the quality and value of security services to NWCCA members. We are also excited by the possibility that the framework can be offered to other public sector organisations and the opportunity of growth within the security sector.+says Mark Giardelli.

The framework agreement ensures that as a supplier to the NHS, McGoff & Vickers have demonstrated they exceed the standard levels of accreditation under each specified Lot for security services.

McGoff & Vickers Ltd have been awarded the framework for the supply of the following services:

- **Install of Intruder and Hold-Up Alarms** - *Provision of Services associated with Installation and Maintenance of Intruder Alarms, Hold-up (or Personal Attack) Alarms and other such version of Alarms that may reasonably be associated. Services may include but are not wholly required, nor limited to; Design of systems, Installation of systems or alarms, maintenance services of alarms and systems and repair to systems or alarms.*
- **Alarm Receiving Centres and Remote Video Receiving Centres** - *Provision of services relating to Receiving, Monitoring and co-ordinating response to secure signals from Intruder (and Hold up) Alarms, and from Remote Activated Detector CCTV camera's and systems.*
- **Install of CCTV Cameras and Systems** - *Service for CCTV Camera installation includes elements such as; Design, Installation, Maintenance and repair of CCTV systems for use in Public Space, Private Space and Continuous Surveillance, and Install of Remote Activated Detector systems.*
